# Standard FutureCom™ LANscape® Patch Panels 19" Standard FutureCom™ LANscape® Patch Panels 19"

Part Number:
WAXWSV-02400-C001

The FutureCom™ patch panel is universally applicable for all 19-in racks and LAN-cabinets. This allows the free user-specific configuration of building and floor distributors. The front panel is electrically leading. Integrated grounding points are available at the back. Likewise for grounding 2 latches are available for flat connectors. Particularly to emphasize is the simple and fast installation and clicking of the modules into the patch panel.

Features and Benefits

niversally applicable for all 19" rack

Suitable for all LANscape modules (FO and Copper)

Quick mount feature for easy one-person installation

Conductive front panel

Integrated cable strain relief

Two standardised grounding lashes for flat plugs

Integrated earthing points on the back side

Port numbering above and below ports

Space above ports can be used for customised labelling
