FutureCom™ Cable Management Panel 19'', 1U Black

CORNING

Part Number:
WAXWSW-00008-C007

The LANscape® System offers cable management solutions for all installation options and mounting methods. In order to ensure an arranged and clear execution of the patch cords between the patch panels in the LAN cabinets, Corning offers the LANscape 19" cable management panel as a clean conclusion in LAN cabinets.

By the employment of 19'' cable management panels, unused installation levels in 19'' cabinets lock cleanly in the simplest way. With five black cable management brackets, the panel provides an arranged and clear patch cord routing into the cabinet interior.
