

UHI-OG(S)-0 Indoor Camera Housing

The Indoor Camera Housing is a smartly styled unit, intended for use inside. This housing is both cost-competitive and installer-friendly.

Functions

Easy installation

The unique, hinged, side-opening design provides easy installation of all camera/lens combinations, and allows access to most camera and lens controls when the housing is mounted. Route power, video, and lens control cabling through the liquid-tight fittings in the bottom rear of the housing, or for even better cable management, via the feed-through entry holes in the base. Mounting holes in the base permit installation to a wide range of pan/tilts, adjustable heads, and various camera-mounting brackets.

Dinion ready

This housing supports installation of Dinion style cameras with fixed focal, varifocal, or up to a 15x motorized zoom lens.

Secure

For increased security, the units come with tamper-resistant screws for the locking clasps to prevent illegitimate access to the housing contents. The housing is an optimal solution for protecting your indoor video surveillance applications.
