Biometric & Keypad Covers

STI-6514-S

BIO-7504 & BIO-7505

STI-6521-C

KEY FEATURES

General Information

· Protect fingerprint readers, keypads and similar devices from damage and the elements.
· Three year guarantee against breakage of polycarbonate in normal use.

Design

· Protects keypads, electrical outlets, push buttons and volume and lighting controls from misuse, but allow the devices to remain accessible.

Construction

· Moulded from tough, clear UV-stabilised polycarbonate material.
· Stainless steel torsion spring (with certain models) maintain cover in a closed position.
· Typical working properties of polycarbonate are -40°C to 121°C (-40° to 250°F)

Installation

· Retrofittable design for a quick and easy installation.
· Comes complete with mounting hardware and gasket.

Options

· Certain models are available in a smoke finish polycarbonate for privacy.
· Gasket replacement is recommended at least every five years.

PRODUCT OVERVIEW

These tough UV-stabilised polycarbonate covers have been designed to protect card readers, access control keypads and similar devices from abuse and accidental damage as well as from the external elements.

HOW IT WORKS

The Biometric and Keypad Covers are easy to install and are shipped complete with rawl plugs, screws and gasket. Most models retrofit over existing devices and are ideal for applications which require privacy. Simply lift the cover to gain access to the existing device.
